No. 961

Introduced by Senator Wright
(Coauthors: Senators Cox, Negrete McLeod, and Strickland)
(Coauthor: Assembly Member Hall)

February 5, 2010

An act to add Section 1367.655 to the Health and Safety Code, and to add Section 10123.205 to the Insurance Code, relating to health care coverage.

LEGISLATIVE COUNSEL'S DIGEST

SB 961, as amended, Wright. Health care coverage: cancer treatment.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law also provides for the regulation of health insurers by the Department of Insurance. Existing law requires health care service plan contracts and health insurance policies to provide coverage for all generally medically accepted cancer screening tests and requires those plans and policies to also provide coverage for the treatment of breast cancer. Existing law imposes various requirements on contracts and policies that cover prescription drug benefits.

This bill would prohibit health care service plan contracts and health insurance policies that provide coverage for ~~cancer chemotherapy treatment that is taken orally from charging or otherwise requiring a copayment or other charge for each of those dispensed prescriptions in excess of a certain unspecified amount~~ *orally administered cancer medications from charging a copayment for the medications in excess*

of 200% of the lowest copayment required by the plan or policy for brand name medications in the formulary of the plan or policy, as specified. The bill would specify that its provisions do not apply to a health care benefit plan, contract, or health insurance policy with the Board of Administration of the Public Employees' Retirement System.

Because a willful violation of the bill's requirements relative to health care service plans would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.

The people of the State of California do enact as follows:
